Date of Application, 20th June, 189,—Accepted, 25th July, 1891

COMPLETE SPECIFICATION.

Improvements in Biscuits.

I, THOMAS EUSTACE MARRIOTT of Havelock Road Hastings, Dispensing and Homœopathic Chemist, do hereby declare the nature of this invention and in what manner the same is to be performed, to be particularly described and ascertained in and by the following statement :—

This my invention relates to improvements in biscuits by the introduction by the introduction of lentil powder in a palatable and agreeable form.

Lentils are known to contain as much nutriment as meat but they have not been used in the manufacture of biscuits in the manner hereinafter described.

Lentils have been largely used by vegetarians in the form of soups, puddings and as a porridge but no good lentil biscuit has yet been placed on the market.

Now in this my invention I manufacture preferably three kinds of biscuits containing lentil powder with the following ingredients and preferably in the following proportions

1.	Lentil powder - - - -	1 part
	Whole Wheatmeal - - -	2 parts.
2.	Lentil powder - - - -	1 part
	Fine white flour - - -	2 parts.
3.	Lentil powder - - - -	1 part
	Oatmeal - - - -	2 parts.

Having now particularly described and ascertained the nature of my said invention and in what manner the same is to be performed I declare that what I claim is :—

1. My improvements in biscuits containing lentil powder combined with the ingredients and preferably in the proportions substantially as set forth and described.

Dated this 20th day of June 1891.
